CDP Assassins Pt I Said (Outro) 10 (0:18) Back in the 90s, beat tapes were literally that: cassette tapes of beats that a producer made either for himself, friends, or potential collaborators.. The Madlib Medicine Show series is a combination of Madlibs new hip-hop productions, remixes, beat tapes and jazz, as well as mixtapes of funk, soul, Brazilian, psych, jazz and other undefined forms of music.. These beats, often freestyled on SP1200 or whatever machine he had at the ready, were picked up by rappers over a period of many years.. Madlib Beat Konducta 5 6 Rar Series Of EarlyMadlib made a bunch of them in the days between his early productions for the Alkaholiks (circa 92) and the release of his Quasimoto album (2000), after which he took a couple of years off of the beats to focus on making jazz music before beginning a new era of hip-hop with Madvillain, Jaylib and Beat Konducta.. This collection of beats showcases the way that Madlibs early hip-hop demos were filtered out to his crew of friends and associates, providing an opportunity for a unique view into Madlibs working process.
