[Default File Download Location Google Chrome](#)

The screenshot displays the Windows Group Policy Editor interface. On the left, the navigation pane shows the hierarchy: Desktop > Google > Google Chrome. The main pane is titled 'Set download directory' and contains the following information:

- Edit policy setting:** [Edit policy setting](#)
- Requirements:** Microsoft Windows 7 or later
- Description:** Configures the directory that Google Chrome will use for downloading files.

On the right side of the main pane, a list of settings is visible, with 'Set download directory' selected. Below the main pane, a detailed configuration window for the 'Set download directory' policy is shown:

- Set download directory** (Policy Name)
- Options:** Not Configured, Enabled, Disabled
- Comment:** (Empty text box)
- Supported on:** Microsoft Windows 7 or later
- Options:** (Empty text box)
- Help:** Configures the directory that Google Chrome uses for downloading files. If you set this policy, Google Chrome will use the

At the bottom of the configuration window, the 'Options' text box contains the path: `c:\temp\downloads`.
